

LED NATURE™ Series

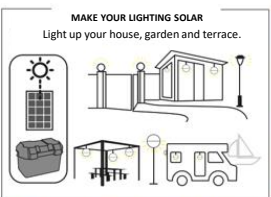

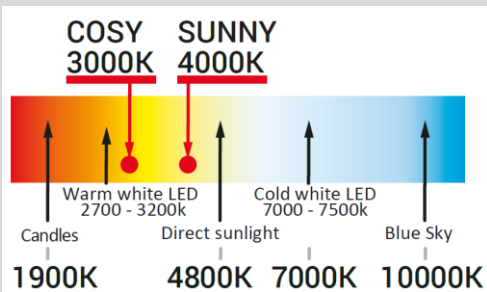

LED NATURE™ Series - XUNZEL

High resistance (Heavy-Duty), high efficiency and ultra-safe LED bulb (12 / 24V)

Product Description

- + Exterior and interior use | Ultra-safe (12 / 24V DC and AC). With reverse polarity protection.
- + Impact resistant. Long lasting. Designed for extreme environments (Heavy-Duty).
- + High light efficiency and very low consumption (1W).
- + Great luminosity and uniformity. Up to 100 lumens.
- + Two models: COSY- 3000K (warm white light) and SUNNY-4000K (solar neutral light).
- + Long useful life. Without maintenance.
- + They do not emit UV or near infrared radiation.
- + Mercury free (0.0mg Hg).
- + Instant light, no warm-up time.
- + Suitable for any standard E27 base or luminaire.
- + Robust, strong and elegant design.
- + Connect them directly to the battery discharge controller. No need for an inverter to illuminate.
- + With integrated solar driver.
- + Ideal for DC applications, for example, solar, wind or hybrid off-grid (Off-Grid) and Off-Shore lighting systems: domestic or industrial lighting, street lamps, garden walkways, boat decks, ports, driveways to garages, garages, sheds, cabins, remote or rural areas, caravans, etc.

LED NATURE™ 1W SUNNY

- Colour Temperature: Solar Neutral White Light | 4000K
- 100 lumens. 25W incandescent/halogen equivalent
- 140mA/12V – 83mA/24V | E27 Socket

LED NATURE™ 1W COSY

- Colour Temperature: Solar warm light | 3000K
- 100 lumens. 25W incandescent/halogen equivalent
- 140mA/12V – 83mA/24V | E27 Socket
