Solar mounting systems- XUNZEL

Pre-assembled universal mounting systems for photovoltaic solar panels.
Easy and fast assembly.

A wide range of mounting systems and accessories covering a variety of roofs, floors, walls or posts. Systems for floor, flat roof, tile, slate, flat roof, corrugated cement, sheet metal, wall or post of any shape.

Aerodynamically optimized and high quality and robust materials.

Designed to make Safe installations, with Great Mechanical Stability and Reliability.

All fixing systems are calculated and approved for structural resistance and mechanical operation.

Manufactured in High Quality and Excellent Rigidity Cold Formed Anodized Aluminum (EN AW-6063 T66) and Stainless-Steel Screws (1.4301) A2-70.

Superior Safety

- Quick and easy to assemble
- Excellent Results
- No Maintenance
- Very Light
- Environmentally friendly

Series

SOLSTAND™ Series

Ground mounted, Flat floors and roofs

SELFSTAND™ Series

Self-standing. Flat roofs and ceilings without fasteners

SOLTILE™ Series

For all kind of roofs (tiles, corrugated, metal, ...)

SOLPOLE™ Series

Poles and columns (circular, trapezoidal,)

SOLSTANDWALL™ Series

Wall

SOLSTANDTM Series-XUNZEL Mounting Systems for ground and flat floors

SOLSTAND-2GXLTM

Solar mounting systems for ground and flat floors with tilt 25°- XUNZEL

Pre-mounted universal mounting systems at an angle of 25° for photovoltaic solar panels. Easy and quick to assemble.

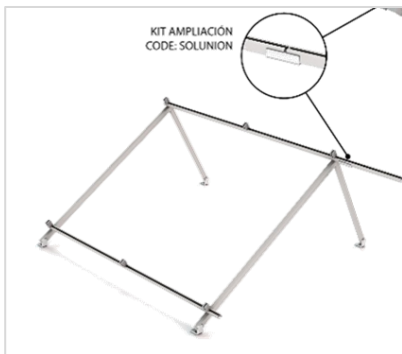

Aerodynamically optimized and high quality and robust materials. Designed to make safe installations, with great mechanical stability and reliability. All fixing systems are calculated and approved for structural resistance and mechanical operation.

Manufactured in High Quality and Excellent Rigidity Cold Formed Aluminum (EN AW-6063 T66) and Stainless-Steel Screws (1.4301) A2-70.

SOLTILE™ Series-XUNZEL - Mounting Systems for roofs

Mounting Systems for roofs - XUNZEL

Universal pre-assembled assembly systems for all types of roofs for photovoltaic solar panels Easy and fast assembly.

For all types of roofs: cimacio or flamenco tile, flat tile, slate tile, Coppo, concrete, sheet metal, corrugated, fretted,....

Including SOLTILEFIXM10 fixing kit with EPDM seal..

Aerodynamically optimized and high quality and robust materials. Designed to make safe installations, with great mechanical stability and reliability.

All the fixing systems are calculated and approved for structural resistance and mechanical operation.

Manufactured in High Quality and Excellent Rigidity Cold Formed Aluminum (EN AW-6063 T66) and Stainless-Steel Screws (1.4301) A2-70.

SOLPOLEWALL™ L

SOLPOLEWALL™ M

SOLPOLE-XL™

All-in-one pole and/or wall mounting system with adjustable inclination - XUNZEL

Universal pre-assembled mounting systems with adjustable inclination (35-45-50°) for photovoltaic solar panels. Easy and quick to assemble.

Aerodynamically optimized and high quality and robust materials. Designed to make Safe installations, with Great Mechanical Stability and Reliability.

All the fixing systems are calculated and approved for structural resistance and mechanical operation.

Manufactured in High Quality and Excellent Rigidity Cold Formed Aluminum (EN AW-6063 T66) and Sheet Metal with Stainless Steel Screws (1.4301) A2-70.

Models

Pole and/or wall brackets - all in one for small panels

SOLPOLEWALL -M - Support set for 1 SOLARPOWER-5 panel up to 30

SOLPOLEWALL -L - Support set for 1 panel SOLARPOWER-60/80/120

SOLPOLEWALL -M3024 - Support set for 1 panel SOLARPOWER-30W-24V

Post brackets for large panels:

SOLPOLEXLV2N30 - Support set for 1 panel SOLARPOWER-ON-PERC-425 30mm

Mounting Accesories

- **RING100 / 150 / 200** - Pack of 4 brackets for pole mounting (Ø 100/150/200mm) for SOLPOLE-XL
